SUMMARY

Full-Stack Python Developer with hands-on project experience in Django, Flask, HTML, CSS and MySQL, plus a background in SLA-driven telecalling support and cross-team coordination. Skilled at building and debugging web applications end-to-end, from backend logic and database design to responsive frontend UI. Quick learner with a collaborative mindset, eager to contribute to real-world development projects.

TECHNICAL SKILLS

Programming Languages: Python, HTML, CSS, SQL
Frameworks & Libraries: Django, Flask, Bootstrap, Pandas, NumPy
Databases: MySQL
Tools & Technologies: Git, Linux, Windows, VS Code

PROFESSIONAL EXPERIENCE

Telecaller — Spiro Prime Tech Services

January 2025 – June 2026

- Handled inbound and outbound customer calls, resolving queries within defined SLA timelines.
- Escalated unresolved issues to the appropriate teams and coordinated follow-ups to ensure timely closure.
- Maintained accurate call records and customer interaction logs to support process tracking and reporting.
- Collaborated with cross-functional teams to improve response times and customer satisfaction.

Web Development Intern — Optimus Technocreates (Salem)

Duration: 20 Days

- Gained hands-on exposure to HTML fundamentals and structured web pages using semantic elements.
- Developed simple static web pages as part of training exercises, following team code and formatting standards.

PROJECTS

JobConnect — Django Job Portal

- Built a full-stack job portal using Django with separate candidate and recruiter registration flows and dynamic template rendering.
- Redesigned homepage, candidate and recruiter registration pages with a blue-to-purple gradient brand identity using Bootstrap 5.3.3, Poppins font, and glassmorphism card styling.
- Debugged template rendering issues and resolved scroll/performance problems caused by CSS overflow settings and heavy backdrop-blur animations.

Employee Management System & Payroll System

- Built CRUD-based Employee Management System in Python to manage employee records.
- Developed an automated Payroll System calculating salaries based on working hours, deductions, and bonuses.

Student Marklist System

- Python program to calculate average marks, assign grades, and determine pass/fail status.

EDUCATION

B.Com Computer Applications — Excel College for Commerce & Science, (2025)
HSC (Computer Science) — Mahendra Matric Hr Sec School (2022) — 73%
SSLC — Mahendra Matric Hr Sec School (2020) — 80%

ADDITIONAL INFORMATION

Certifications: Flask, OpenCV, HTML5, CSS3
Languages: English, Tamil
